

**Listen as your teacher reads this non-fiction paragraph out loud. On your own, complete the assignment that follows.**

Years ago families had one log house that served as a winter home, and in the other seasons they lived in a tent. In April they went to spring camp. People moved from 15 to 50 kilometres, depending upon the availability of game. Transportation was by horse, by foot, and by pack dog. There were usually friends and relatives at these camps. A second move to summer camp took place in July to follow new game and meet different friends. A third move would occur in the fall – to a good fishing lake and a good berry supply. The families moved back into their log homes in early winter.

**What words or phrases from the above informational text helped you to visualize a picture about its meaning?** (Write them here or highlight them in the paragraph)

**Make a quick sketch of something from this informational text that you found interesting or important.** (Use symbols, graphs, words or pictures)

Every roof had turned startlingly white with frost. Every windowpane had become opaque with stringy spider webs stretching across the frames. The overgrown grass in the parks was silvery like the greying hair of an old man. Thirsty birds looked in frustration at frozen ponds. The lake beside Woburn Wood was solid, and through the trees Luke could hear the excited cries of skaters. The hillside across from him was thick with snow and sleds. At the bottom of the gentle slope, children were engaged in a snowball battle. Some were probably not much younger than Luke. But Luke was dealing with something altogether more adult and serious.

**What words or phrases from this fiction text helped you to visualize a picture about the story?** (Write them here or highlight them in the paragraph)

**Make a quick sketch of what you imagined in your head when you heard the story.** (Use symbols, graphs, words or pictures)
